Sprint #2 Report

Product name: **Shipsterr**

Team name: **Cary Huang - Product owner**

Gia Trinh - Scrum Master

Daniel Alfaro Cortez - Team member

Nikola - Team member

Raeeka Yusuf - Team member

Date: 07/12/2019

1. Actions to stop doing:

- It is required to focus mainly on the member tasks since Sprint II is almost finished.
- Daily scrum meetings not go over 15 minutes.

2. Actions to start doing:

- The team need to schedule one or two more meetings.
- Required to obtain all the API's from the different parcels to obtain some testing method , and be able to connect in our html page that has developed already

3. Actions to keep doing:

- The team already established a good advance in the project, one team member advance in the project by developing the mainly website html pages and css.
- The team needs to keep the positive attitude as last week. That was very good and efficiency.

4. Work completed/not completed:

- Team has successfully completed the html pages and css design into our prototype which give us a lot of advantages to be able to start testing code inside of the html pages.

- The website template is fully functional with a good looking design.
- It is required to have the API's from the different parcel in order to have some testing.
- Require more research in how to obtain the API's and how to use JS files.
